

# 210 micron Roll Up Film – SOLroll

## Features

- ▶ Excellent colour brilliance due to specialised matt coating with eco and real solvent inks.
- ▶ Selected lay flat film for reduced curl compared to some Polyester films (less curl memory).
- ▶ Scratch and water resistance when dry. Lamination recommended, possible without.
- ▶ 210 micron for ease of use and excellent hanging characteristics.
- ▶ High opacity with silver backing to reduce show through.
- ▶ No PVC, environmentally friendly, less disposal issues.
- ▶ Suitable for use with Latex and UV curable inks.
- ▶ Short term outdoor applications possible.

\* Depending on the printer the heater should be reduced to a maximum of 35 degrees C.

\* Pre heating unit should be turned off completely.

---

## Technical data

- ▶ 210 micron Thickness calliper
- ▶ 170 gsm Weight

---

## Availability

- ▶ 914mm x 30m. Single roll box.
- ▶ All rolls on 3" core.
